WORK EXPERIENCE

Key Projects
[allseasonstech](#)
- Developed a dynamic web application enabling users registration, post creation, and interaction, leveraging robust technical skills in Javascript, react js, node js and Mongodb.

JPMorgan Chase & CO. – *Jersey City, NJ* June 2023– Present
Software Engineer
- Enhanced app's readability and maintainability through the implementation of a script using Node js.
- Implemented a Pill Tab into an existing application utilizing React js to display the comprehensive ecosystem of core onboarded applications, essentially ensuring the hygiene of the onboarded apps.
- Participated in a Global Hackathon organized by the firm, collaborated with my co-intern to develop a web app using React Js and spring boot that keeps technologists updated with the current business news and emerging concepts.
- Incorporated Unit testing and cypress into my skills set while actively contributing to the projects.
- Developing and maintaining backend features using Java and Spring Boot for a high volume payment processing system.
- Worked on Qpid messaging system and integration contributing to successful production deployment within first few months on the team
- Participate in rotational production support, investigating root causes of stuck or canceled payments and reporting findings to the operations team.

LEADERSHIP ACTIVITIES & VOLUNTEER EXPERIENCE

The Braven Accelerator – *Newark, Nj* January 2023 – May 2024
Fellow
- Developed workforce skills such as leadership, operating and managing, communicating and networking, working in teams, and problem solving by completing a 14-week leadership and professional development course.
- Designed a career roadmap by outlining 3 specific, short-term goals and identifying possible obstacles, strengths and support systems to help achieve each goal.
